

Product Information

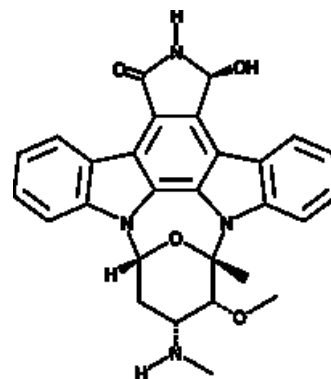

UCN-02

Cat No: 20221 - 1 mg

General Data

Shipping:	dry ice
Formulation:	A solution in ethanol
Purity:	≥95%

Product Overview

UCN-02 is a derivative of staurosporine (Item No. 81590) and a stereoisomer of UCN-01 (Item No. 18130) first isolated from a high staurosporine-producing *Streptomyces* culture as a minor co-metabolite. UCN-02 inhibits protein kinase C with a slightly reduced potency than UCN-01 (IC₅₀ = 62 and 4.1 nM, for UCN-02 and UCN-01, respectively) and is cytotoxic to the growth of HeLa S3 cells.

FP/18/24

For research laboratory use only – Not for human diagnostic use.
