

## Despropionyl *meta*-Fluorofentanyl (CRM)

Cat No: 26426 - 100 µg

### General Data

**Shipping:** dry ice

**Formulation:** A 100 µg/ml solution in methanol

**Special advice:** Reference Materials RMs and Certified Reference Materials CRMs are dispatched directly to the end-user in accordance with ISO requirements. Please check regulation status before ordering; additional fees can apply.

### Product Overview

Despropionyl meta-fluorofentanyl (CRM) (Item No. 26426) is a certified reference material that is structurally similar to known opioids. Despropionyl meta-fluorofentanyl is a precursor to meta-fluorofentanyl and meta-fluorobutyryl fentanyl and a potential impurity in illicit preparations of this class of compounds. It is also a potential metabolite of meta-fluorofentanyl and meta-fluorobutyryl fentanyl based on the published metabolism of fentanyl.<sup>{39266,40111,32577,39265,39267}</sup> At the time despropionyl meta-fluorofentanyl (CRM) (Item No. 26426) was made available for purchase, specific metabolism data had not been published. Contact us if updated information on this molecule is now available. This product is intended for research and forensic applications.

FP/14/24

**For research laboratory use only – Not for human diagnostic use.**

Buyers agree to purchase the material subject to Purchasing Terms that can be found on our website. Seek appropriate training to safely handle this product under normal conditions. Use the recommended personal protective equipment to prevent chemical exposures.

Bertin Bioreagent does not make any other warranty or representation whatsoever whether expressed or implied, with respect to these products. In no event will Bertin Bioreagent be liable for incidental, consequential or punitive damages.
