General Data

Shipping: dry ice

Formulation: A 1 mg/ml solution in methanol

Special advice: Reference Materials RMs and Certified Reference Materials CRMs are dispatched directly to the end-user in accordance with ISO requirements.

Product Overview

17 β -Estradiol (CRM) (Item No. ISO60155) is a certified reference material categorized as an estrogen. 17 β -Estradiol is a steroid hormone produced from testosterone that is instrumental in the development of secondary sex characteristics at puberty and in the menstrual cycle. Abnormal circulating levels of 17 β -estradiol are associated with a number of pathological conditions, such as hormone-dependent cancers and osteoporosis. This product is intended for use in analytical research applications. This product is also available as a general research tool (Item No. 10006315).

FP/03/24

For research laboratory use only – Not for human diagnostic use.

Buyers agree to purchase the material subject to Purchasing Terms that can be found on our website. Seek appropriate training to safely handle this product under normal conditions. Use the recommended personal protective equipment to prevent chemical exposures.
