

Product Information

PROTEOSAVE SS 0.5mL Slim Tubes

Cat No: D30007 - 50 ea

General Data

Shipping:	room temp.
Stability:	Store at RT; shelf life 36 months maximum after production
Formulation:	pack of 50 tubes

Product Overview

Non Protein Adsorption Products - ProteoSaveSS

PROTEOSAVE SS is special surface treatment products with high hydrophilic polymer. Tube or well surfaces are covered with hydroxyl group in high density and it enables to block the non-specific binding of proteins, peptides and cells to the surface dramatically. Sample loss originated from non-specific binding to tubes/plates is prevented effectively. In addition, the property of organic resistance and heat resistance is considerably improved compared with conventional surface treated products.

Reduce the adsorption of proteins, peptides and cells

Resistance to organic solvents, detergents, heat

FP/18/24

For research laboratory use only – Not for human diagnostic use.

Buyers agree to purchase the material subject to Purchasing Terms that can be found on our website. Seek appropriate training to safely handle this product under normal conditions. Use the recommended personal protective equipment to prevent chemical exposures.
