

# Product Information

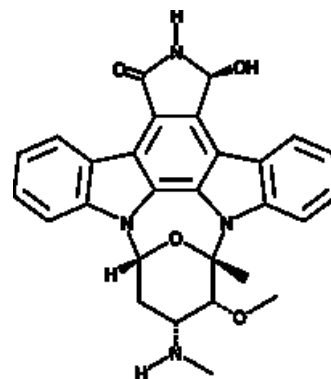

## UCN-02

Cat No: 20221 - 1 mg

### General Data

<b>Shipping:</b>	dry ice
<b>Formulation:</b>	A solution in ethanol
<b>Purity:</b>	≥95%

### Product Overview

UCN-02 is a derivative of staurosporine (Item No. 81590) and a stereoisomer of UCN-01 (Item No. 18130) first isolated from a high staurosporine-producing *Streptomyces* culture as a minor co-metabolite. UCN-02 inhibits protein kinase C with a slightly reduced potency than UCN-01 (IC<sub>50</sub> = 62 and 4.1 nM, for UCN-02 and UCN-01, respectively) and is cytotoxic to the growth of HeLa S3 cells.

FP/05/24

For research laboratory use only – Not for human diagnostic use.
