

Life Sciences Offer

Innovative laboratory equipment

- Air monitoring solutions
- Sample preparation homogenizers
- Bioreagent & Bioanalytical tools
- On-demand technology

Air Sampling & Sample Preparation

Bertin Technologies designs, manufactures & sells equipment, consumables and reagents for laboratory & technological development in various fields with a **customer focused approach**.

CORIOLIS®

BIOLOGICAL AIR SAMPLERS FOR BIO-CONTAMINATION QUALITY CONTROL

Collection of biological particles in the air for the control of airborne contamination

- Compatible with all analysis methods thanks to its unique vortex technology
- Dry/liquid cyclonic collection
- Optimized for micro-organism, pollens, spores...

PRECELLYS®

A WORLDWIDE REFERENCE IN TISSUE HOMOGENIZATION

Efficient and flexible sample homogenizers that can grind any type of sample

- A full range of versatile, ergonomic homogenizers
- 20 years of expertise in sample preparation
- A unique application center with a comprehensive database including protocols, applications notes & publications
- Dedicated scientific support to optimize your results

Biomarker Detection & Extraction Kits

BERTIN BIOREAGENT

KITS & REAGENTS

A comprehensive offer of best-in-class analysis tools dedicated to biomarkers

- Commitment to quality & guaranteed performance
- 30 years of know-how in biomarker assays
- A complementary reagent range for streamlined workflows with Bertin Instruments

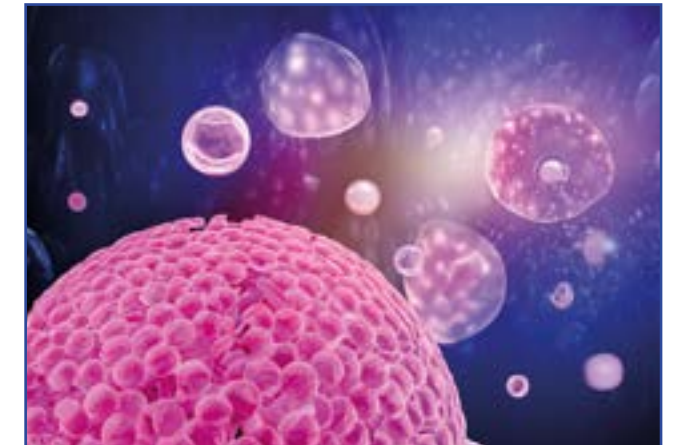

TISSUE DISSOCIATION KIT

SEPARATING CELLS FROM TISSUE

The reliable kit for obtaining live single cells

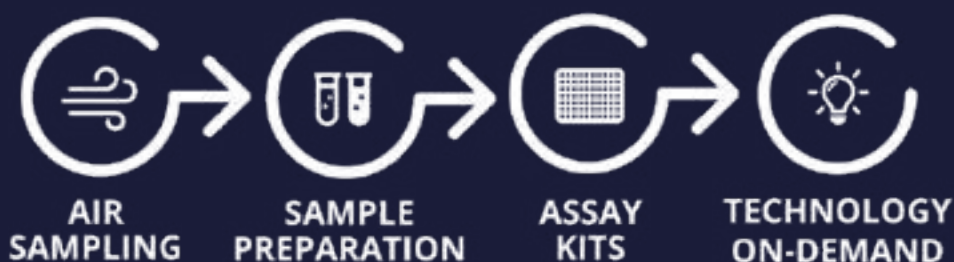

- Bead-shearing dissociation: Patented mechanical dissociation using beads, combined with enzymatic dissociation thanks to our in-house mix.
- High viability rate: Over 80% viable cells, crucial for live cell research, ensures reliable results.
- Versatility: Suitable for various tissues, compatible with multiple methods, flexible and efficient.

Bertin Life Sciences and Bertin Bioreagent: Comprehensive Life Sciences Solutions

OPTIMIZED SOLUTIONS

- EFFICIENT PRODUCTS
- INNOVATIVE SOLUTIONS
- EXPERTISES: ELECTROMECHANICS, OPTICS, SOFTWARES...

TECHNOLOGY ON DEMAND

- PROJECT MANAGEMENT
- HARDWARE & SOFTWARE DEVELOPMENT
- BIOANALYSIS
- ELECTROMECHANICS, OPTICS
